

Introducing The Children's Therapy Center Upper School

The Board of Directors and staff of The Children's Therapy Center are proud to announce that we are expanding our program. The Children's Therapy Center Upper School, located in Midland Park, NJ will provide services for students with multiple disabilities ages 7 – 12.

Our new facility is a 30,000 square foot building located in Midland Park, NJ, minutes away from our lower school located in Fair Lawn, NJ. There are 6 classrooms, separate therapy rooms for OT and PT and a "Speech Suite" consisting of sound-proof offices. In addition, there is a gymnasium, a health office, staff room, conference room and testing room.

The park-like surroundings provide opportunities to enhance the curriculum by providing exposure and hands-on experiences. Each classroom has a rear entrance that leads to a patio for outdoor play and learning, a picnic area and a sensory garden. We are even starting a horticulture program!

As is the case at our current site, The Children's Therapy Center Upper School will recognize the value of ongoing and detailed communication between staff, families and school district personnel. In addition, we will carry on the culture that the CTC is known for – valuing and recognizing the warmth, understanding and caring shown to our children and families by our very dedicated staff.

There are many opportunities for you to be a part of this exciting expansion of our current programs. For information on sponsoring the Upper School equipment needs or to make a contribution toward the renovation project, please contact Audra Hoffman, Director of Development at 201.797.7440 x 227 for details. You can make a difference and help us to make the CTC Upper School the finest possible facility for children with disabilities ages 7 – 12 years of age.
